

PROFILE SUMMARY

Impact-focused business professional skilled in **requirement gathering**, **stakeholder management**, process improvement and **data-driven** problem solving, turning ambiguous business challenges into clear, actionable outcomes

PROFESSIONAL EXPERIENCE

Senior Associate Analytics, WNS (Capgemini), Feb 2022 – Dec 2024

- Gathered **business requirements** through 20+ client interviews, defining **user stories with acceptance criteria** and **process flows** for a in house clinical trial data application, which improved reporting accuracy and reduced data logging errors for a healthcare client.
- Created user stories and **functional specifications** on Jira and Confluence, and ran daily scrum calls with the development team to track progress and manage risks (RAID), improving delivery visibility across the project.
- Built **Power BI dashboards** to track clinical trial KPIs such as budget versus expense, replacing manual tracking with near real-time reporting and enabling faster, **data-driven** decisions that earned senior leadership recognition.

Business Analyst, Codewalla Software, May 2020 – Jan 2022

- Conducted market and **competitor analysis** to identify industry trends and business needs, informing customer-centric product enhancements that accelerated release cycles by 50%.
- Analyzed user behavior metrics using Google Analytics and Data Studio to identify usage patterns, supporting **data-driven feature prioritization** that increased user engagement by 15%.

ACADEMIC PROJECTS/TRAINING

- Procurement & Inventory Decision Intelligence Platform, GLIM**
Built a **decision support** prototype for inventory, **procurement** and **supplier management**, defining **functional requirements** and **business rules** for safety stock and **demand forecasting**, surfacing priorities for faster decisions.
- Fraud Detection and Risk Analytics Model, IIM Indore (IPBA)**
Analyzed insurance dataset to detect fraud patterns using feature engineering relevant to **banking and finance** risk assessment, translating results into recommendations for claims prioritization.
